## SYNWOOD PVC FOAM SHEET

Synwood is the synthetic wood which is made by foaming of PVC by using ultra high end technology into different forms for various applications. It is 100% recyclable. Synwood is formed by the process of foam extrusion methods. The introduction of twin screw extrusion is a significant achievement for Synwood productions and others Sheet products.

### FEATURES

**100% WATER  
PROOF**

**TERMITE  
PROOF**

**FLAME  
RETARDANT**

**SOUND  
PROOF**

**CHEMICAL  
PROOF**

**EASY  
INSTALL**

**ENVIRONMENT  
FRIENDLY**

**LOOKS LIKE WOOD, FEELS LIKE WOOD & LASTS LONGER THAN WOOD**
